this study of bram stoker focuses on stoker as a gothic writer identified with dracula
stoker is largely responsible for taking the gothic away from medieval castles and placing
it at the center of modern life the study examines stoker s contribution to the modern
notion of gothic and thus to the history of popular culture and demonstrates that the
excess generally associated with the gothic is stoker s way of examining the social
economic and political problems his relevance today is his depiction of problems that
continue to haunt us at the beginning of the twenty first century what makes the current
study unique is that it privileges stoker s use of the gothic but also addresses that stoker
wrote seventeen other books plus numerous articles and short stories since a number of
these works are decidedly not gothic the study puts his gothic novels and short stories
into the perspective of everything that he wrote the creator of dracula also wrote the
duties of clerks of petty sessions in ireland a standard reference work for clerks in the

irish civil service as well as the man and lady athlyne two delightful romances furthermore stoker was fascinated with technological development and racial and gender development at the end of the century as well as in supernatural mystery indeed the study demonstrates that the tension between the things that can be explained rationally and the things that cannot is important to our understanding of stoker as a gothic writer
